The Complete Illustrated Book of Development Definitions

Fourth Edition

Harvey S. Moskowitz, Carl G. Lindbloom, David Listokin, Richard Preiss, and Dwight H. Merriam

The latest edition of The Illustrated Book of Development Definitions breaks new ground. It addresses traditional and new planning problems: natural and industrial disasters such as hurricanes and oil spills; new housing types and living accommodations; changes in urban design and practice like new urbanism; sustainability; pedestrian and bicycle friendly environments; and more.

Joining Harvey S. Moskowitz and Carl G. Lindbloom, authors of the first three editions, are two prominent, nationally known planners: David Listokin and Richard Preiss. Attorney Dwight H. Merriam adds legal annotations to almost all 2,276 definitions. These citations from court decisions bridge the gap between land use theory and real world application, bringing a new dimension to this edition.

More than 20,000 copies of previous editions were sold over four decades to professionals and government representatives, such as members of planning and zoning boards and municipal governing bodies. This first revision in ten years updates what is widely acknowledged as an essential, standard reference for planners.

Harvey S. Moskowitz and Carl G. Lindbloom are authors of the first three editions and are prominent, nationally known planners. David Listokin is professor of planning at Rutgers University and co-director of the Rutgers University Center for Urban Policy Research. Richard Preiss is principal of Phillips, Preiss, Grygiel, a planning and real estate consulting firm with offices in Hoboken, NJ. Dwight H. Merriam, FAICP, is partner at Robinson & Cole LLC and a fellow and past president of the American Planning Association’s American Institute of Certified Planners.

More than 2,000 definitions
More than 100 illustrations
Rich commentary
Expert legal interpretations
Numerous cross-references
Current bibliography
