[OpenAI Owner of ChatGPT Suffers Data Breach](#)

OpenAI, the developer of ChatGPT, stated that it has suffered a potential data breach in ChatGPT's source code due to a vulnerability in the software. [OpenAI "took ChatGPT offline"](#)...due to a bug in an open-source library which allowed some users to see titles from another active user's chat history...the same bug may have caused the unintentional visibility of payment-related information" of some ChatGPT subscribers who were using ChatGPT on March 20, 2023. The information that may have been accessible included "name, email address, payment address, credit card type and the last four digits (only) of a credit card number, and credit card expiration date."
